Performance like nothing **ELSe.**

# Australian made like nothing ELSE.

The famous Australian Made, Australian Grown (AMAG) logo is the true mark of Aussie authenticity. It's Australia's most trusted, recognised and widely used country of origin symbol, and is underpinned by a third-party accreditation system which ensures products that carry the logo are certified as 'genuinely Australian'.

Efficient Lighting Systems is proud to have the strong backing of the Australian Made campaign for the Versaline Range.

## Our commitment to designing and building luminaires that last.

Efficient Lighting Systems understands the importance of creating sustainable, quality luminaires that are built to last. This commitment to designing and producing quality luminaires is controlled through the use of the highest quality components and our strict quality control processes from design through to delivery.

This commitment ensures our luminaires are built to last and this is why we back this claim with a 7 year warranty for the Versaline Range. Our specialty extended 10 year warranty is offered on an individual project basis, upon assessment.

## Designed and made in Australia for maximum flexibility.

Designed and Made in Australia the Versaline Range of Downlights has been designed to maximise turnaround times and flexibility in all areas of size, output, dimming, optics and finish. No two projects are the same and thus we believe no two lighting solutions should be the same either. The design of the Versaline Range ensures that every project can have the right solution for the space.

design like  
nothing ELSE.

## FEATURES

### 01 CONSTRUCTION

- Sleek minimalistic design, only 24mm x 27mm
- Made in Australia
- Housing manufactured from extruded aluminum, powdercoated in satin finish

### 02 LED MODULE

- Exceptional LED module performance, up to 130lm/w
- L80 B10, up to 60,000hours
- Available as 3000K, 4000K and white tunable 2700K-6500K
- 80+ CRI
- 3 x SDCM

### 03 INSTALLATION

- Patented hidden clip system allowing for easy installation onto the T-bar without tools, this allows the luminaire to be moved quickly and easily at any time to another location on the ceiling
- Patented clip technology also allows for installation directly onto plaster ceilings for areas that feature a combination of plaster and T-bar ceilings

### 04 CONTROL GEAR

- Remote control gear located above ceiling panels
- Available as either non dim, trailing edge dimming, DALI and Casambi versions

### 05 OPTICS

- Dual optical system combining both lens technology and reflector technology to ensure exceptional glare control while also maintaining beam control
- Available with various optics including an asymmetric version
- Available as a diffused version featuring unique U diffuser to increase vertical illuminance

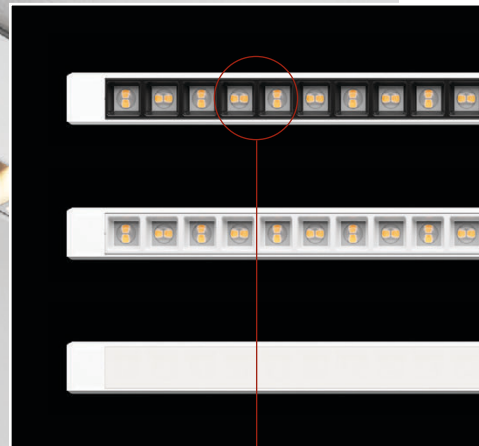

01 Sleek minimalistic construction

02 Exceptional LED performance

03 Patented hidden clip system

04 Remote control gear

05 Dual optical system

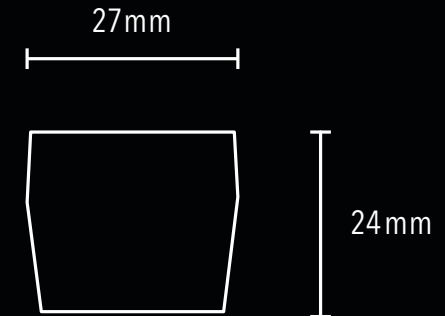

## MINIATURE PROFILE

### Miniature profile and Maximum performance.

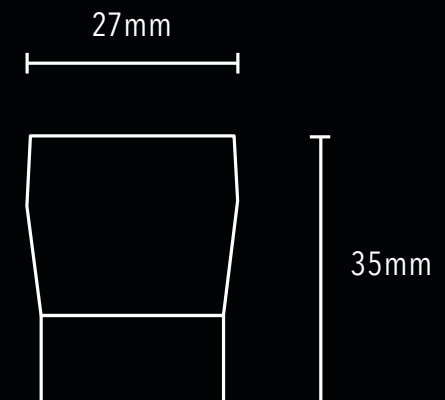

Rigorous engineering and testing of optics and LEDs has resulted in a truly miniature profile with maximum performance. Measuring only 24mm x 27mm the discreet profile of the Versaline offers outstanding performance at over 130lm/w while still achieving exceptional glare control.
